AESTHETICARE

WHEN SCIENCE MEETS EXPERIENCE

ALL SKIN | MED is a range of dermatological skincare products with unique, clinically-proven formulations that have been designed by Cantabria Labs, experts in dermatology.

Backed by science, ALLSKIN | MED centers around patented, innovative technologies, along with the most in demand ingredients in dermatology to deliver significant, transformative results.

Available exclusively from medical-led professional skin clinics, the range is designed to work in partnership with clinical offerings, with the products clinically proven to enhance treatment results & reduce downtime.

Evidenced-based skincare range, available exclusively from aesthetic skin clinics.

Science

Patented, clinically proven technologies combined with the most in demand ingredients in dermatology.

Expertise

Formulas that are specifically designed to complement aesthetic treatments so clinics can build the most complete & effective protocols for each individual skin need.

Exclusivity

Available exclusively from aesthetic skincare clinics.
Combining clinic expertise & treatments with innovative skincare technologies for a complete holistic experience & long, lasting results.

Taking care of our planet

Cantabria Labs' philosophy 'celebrate life' is lived and breathed through every aspect of the business. They are committed to reducing single-use plastics and minimising their impact on the environment, and the La Concha facility helps to achieve just that.

Maximum Efficacy

Clinically proven formulas with scientifically-proven actives and over 30 years of Cantabria Labs innovation in dermo-cosmetics and nutritional research.

Extensive clinical studies & publications across both core-technologies & product formulas.

Core Technologies & Ingredients

ALLSKIN | MED
Formulas contain core technologies & ingredients that are designed to work in synergy.

Pure and high-quality ingredients optimized in innovative vehicles which ensure stability, improve delivery & tolerance.

Targeted Solutions

A range of unique, active formulations which work on each specific skin layer to not only improve efficacy but to provide a solution for key indications in clinic.

Each solutions contains high concentrations of our exclusive technology & ingredients to ensure maximum efficacy.

Treatment Enhancement

Each ALLSKIN | MED formula or regime is specifically designed to work in partnership with aesthetic skin treatments/procedures to ensure the most complete and effective protocols for each specific skin need.

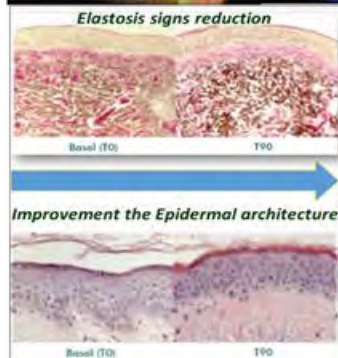

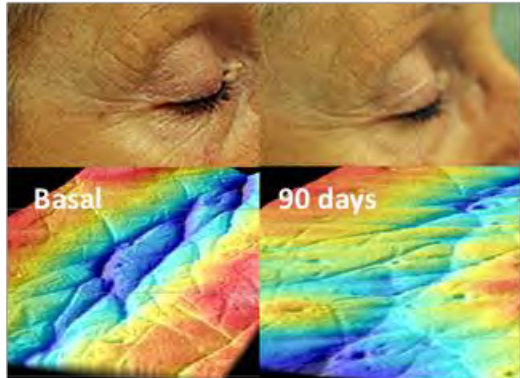

A holistic treatment experience.

Maximum Efficacy

Following years of dermatological research, ALLSKIN | MED delivers patented technologies along with the most sought-after ingredients in dermatology, backed by significant clinical data.

Clinical and Histological Efficacy of the Secretion of the Mollusk *Cryptomphalus aspersa* in the treatment of Cutaneous Photoageing

Abstract
Background: Ablative fractional laser generates a regulated skin damage, which secondarily improves skin aging.
Aims: The main objective of the present study was to figure out if the adverse effects induced by laser and the skin recovery could improve with the application of a cosmetic product based on the secretion of *Cryptomphalus aspersa* (SCA).
Patients/Methods: A prospective double-blind controlled study with vehicle in 30 patients with skin aging. The patients received one session of fractional ablative CO₂ laser, and the formulation with SCA 40% was applied immediately and maintained throughout the 21-day duration of the study. The active treatment (SCA) was applied to one hemifacial area and vehicle to the other, and the patient acting was her own control. Clinical evaluations, dermoscopy, photography, and other parameters like cutaneous hydration, elasticity, and wrinkles were published. In addition, the severity of the adverse effects was evaluated.
Results: Significant greater decrease in the density of microvesicles produced by laser was detected on the active-treated side, indicating greater and faster post-procedure recovery compared to the vehicle-treated side. In addition, side effects were reduced and some antiaging effects were more apparent on the side treated with SCA 40%.
Conclusions: SCA 40% applied immediately after ablative laser, and during the next days, it can accelerate laser-induced damage regeneration. In addition, SCA improves the cosmetic outcome after laser application.

KEYWORDS
ablative laser CO₂ laser, laser recovery, skin aging, treatment

Core Technologies & Ingredients

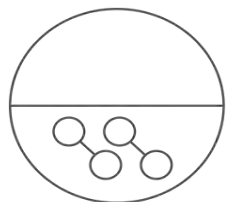

Each product contains a combination of active ingredients and clinically proven technologies that work in perfect synergy, making real skin improvements from cell to surface.

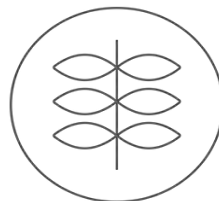

SCA[®] PRO Growth Factor Technology:
Clinically proven to enhance treatment results and reduce downtime.

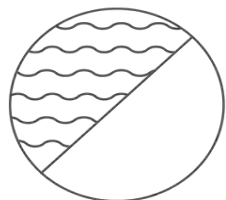

Reoxderm[®] Technology:
Naturally derived actives which neutralise oxidative stress, restore balance, and support the skin's repair processes

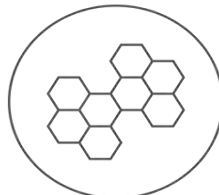

RetinSphere[®] Technology:
Sophisticated delivery mechanism and powerful Retinol activity.

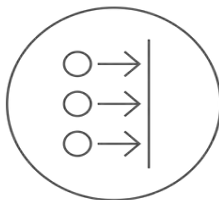

Fernblock[®] Technology:
Clinically proven to protect the skin from within.

EDAFENCE[®] Technology:
Helps to prevent the cascade of damage caused by pollution.

Potent Stabilised Vitamin C:
Combined with a pool of antioxidants to boost skin health.

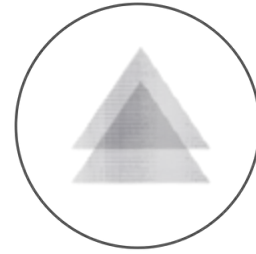

Potent AHAs:
Optimum combinations with immediate & gradual release systems.

Depigmenting system: Targets every stage of the melanin cycle to inhibit tyrosinase synthesis, reducing the intensity of existing hyperpigmentation and preventing further development.

Additional antioxidants:
Vitamin E and a complex of vitamin C, E and superoxide dismutase

Anti-inflammatory & barrier recovery:
Niacinamide, bisabol, physavie & portulaca extract

Additional skin brightening ingredients:
Azeclair acid and Tranexamic acid

Hydrating Ingredients:
hyaluronic acid, arginine, glycerin, and an advanced moisture complex

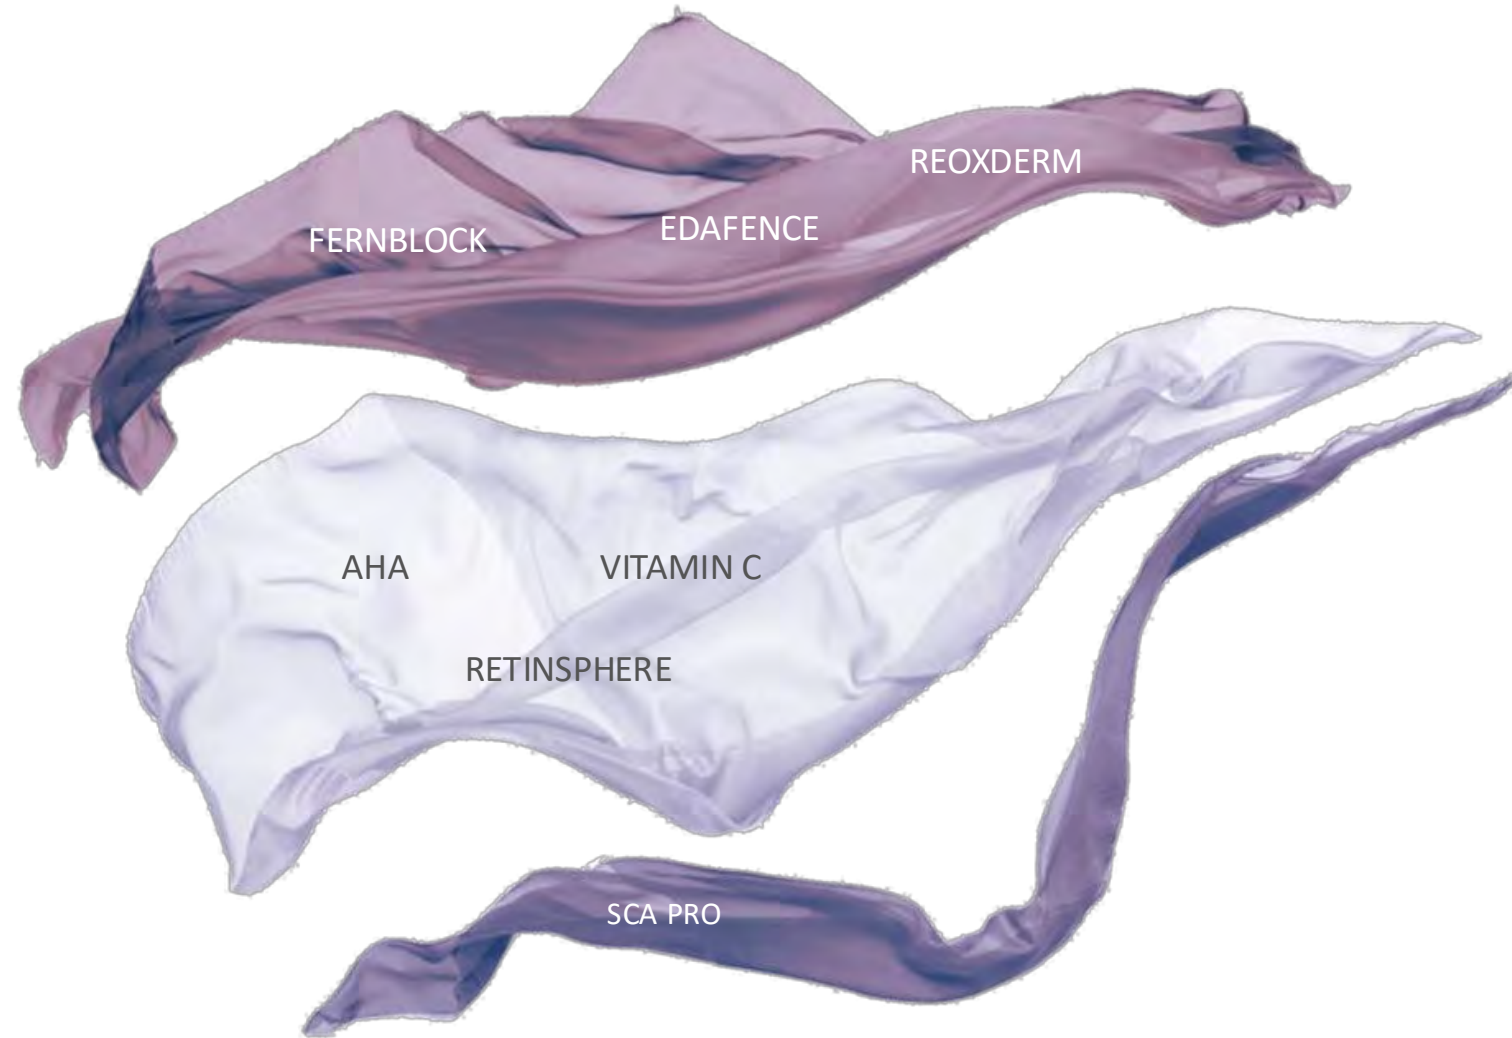

Anti-microbial ingredient:
Biopep 15

Targeted Solutions:

EVERY SKIN LAYER

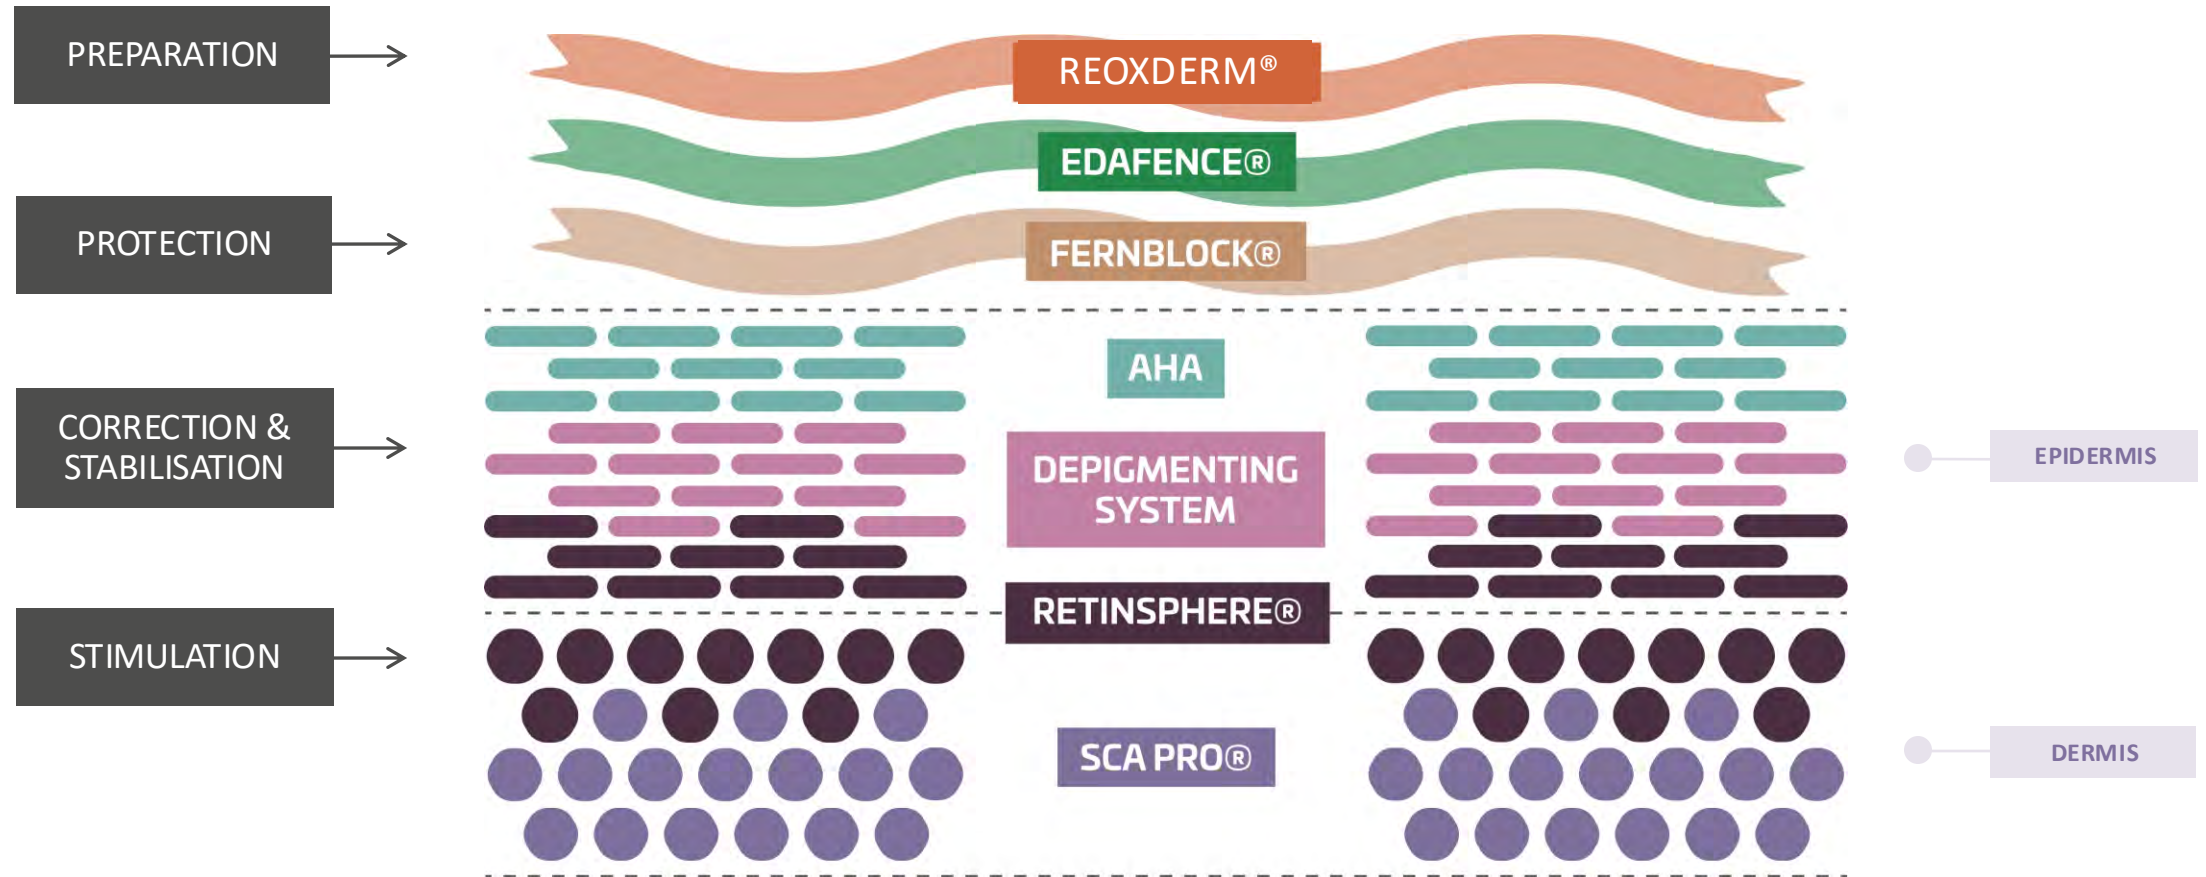

The ALLSKIN | MED Integral Layer System guarantees optimal results through formulations designed to meet the specific needs of each skin layer.

This multi-layer approach is the most effective treatment for both short- and long-term results, targeting the skin's deepest cells along with the superficial layers.

Our products cover all needs and skin types, combined in simple protocols that fit together perfectly

They maintain and enhance in-clinic procedures, **acting specifically on each and every skin layer:**

Brand Architecture

PREPARATION

CORRECTION &
STABILISATION

STIMULATION

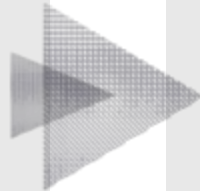

PROTECTION

TREATMENT
ENHANCEMENT

Within the product range architecture we also have
'Treatment Enhancement' which can be broken down into 3 key pillars of use;

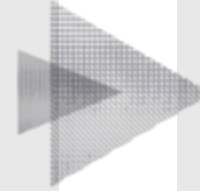

Post-procedure protocols

A protocol designed specifically for post-procedure, in clinic use to reduce downtime & improve results.

Treatment Plans

Pre-packaged home-care plans designed specifically for post-treatment enhancement, with added value & active solutions depending on the treatment performed & skin indication.

Personalised Programmes

Home-care regimes designed to target specific skin indications and cover all area of skincare, AM & PM.

PREPARATION

Cleansing, exfoliation and activation to ensure that skin is ready for all treatments.

CORRECTION & STABILISATION

Active solutions that will help with your microbiome balance, aid in epidermal renewal, sebum regulation & pigment control while protecting your skin barrier function & brightening the complexion.

STIMULATION

Products that help skin reach its full potential, with 2 main therapeutic objectives: cell & fibroblast activation.

PROTECTION

Formulas with broad spectrum sunscreen to protect all skin types from sun exposure, particularly post-treatment.

CLEANSING FOAM

A gentle micellar cleansing foam, formulated with Aqua Maris-based purifying ingredients and plant extracts to gently remove impurities, excess oil and makeup from the face and eye area.

SRP: £25.00

KEY INGREDIENTS

Purifying: Aqua Maris

Anti-oxidant activity: Extract of Mimosa tenuiflora leaf

Soothing: Hydrolysed oat protein

CLEANSING GEL

Daily-use cleansing gel to purify, soften and soothe the skin. Sebum-regulating ingredients help to control oil and shine making it a great choice for all oily and combination skin types.

SRP:£30.00

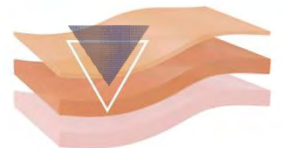

KEY INGREDIENTS

Purifying: Propolis extract

Soothing and softening: Aloe vera

Anti-oxidant and hydrating activity: Hamamelis virginiana extract and Algae extract

Oil regulating: Oligopeptides

PIGMENT CONTROL SERUM

A beautiful, triple action serum that exfoliates to renew and brighten the skin. Its lightening complex targets each stage of melanin production and transfer, plus skin hydrators soften the skin.

SRP: £75.00

KEY INGREDIENTS

Skin cell renewal:

Retinsphere Technology

Pigmentation suppressors: Kojic Acid
and N-Acetylglucosamine

Skin brightener: Niacinamide

Exfoliator: Salicylic acid

Skin hydrators

PIGMENT CONTROL ORAL CAPSULES

A supplement with antioxidant properties and anti-ageing benefits that promotes the prevention and correction of pigmentation related to sun exposure.

SRP: £45.00

KEY INGREDIENTS

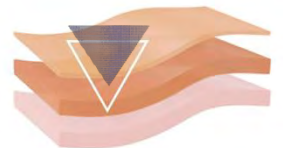

Photoprotective and anti-ageing:

Fernblock

Depigmenting Agents: Niacinamide and
Cystine

Anti-ox complex:

Vit C and Pomegranate Extract

RETEXTURISING SERUM

A retexturising serum with a high concentration of glycolic, citric and shikimic acids which are delivered with a gradual release. Its additional skin hydrators and soothers mean maximum exfoliation with minimal irritation.

SRP: £75.00

KEY INGREDIENTS

Exfoliators:

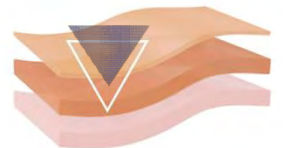

Glycolic, citric, lactic acid cocktail
& Shikimic acid

Skin hydrators

Skin soother: Niacinamide

Anti-ox complex:

Vitamins A, C & E

BARRIER DEFENCE EMULSION

Barrier Defence Emulsion is a daily barrier-boosting formula that activates the skin's natural healing and defense processes through powerful antioxidant technology, Reoxderm®. The emulsion supports against early signs of aging.

SRP: £82.00

KEY INGREDIENTS

Anti-inflammatory:

Reoxderm®

Active Defence Anti-Aging System:

<0.1% retinol, Tri-Peptide Syn-Coll

Moisturise Repair System:

Natural Plant Derived Emollients - Calendula, Almond oil, Sunflower oil, Camellia oil

Anti-ox complex:

Niacinamide, ascorbic acid (Vitamin C), Vitamin E, Turmeric, Lycopene

BARRIER RECOVERY CREAM

Barrier Recovery Cream recovers and restores the skin barrier function with its antioxidant rich technology, Reoxderm®. The formula helps to hydrate and restore moisture and rebalance its microbiome. Soothes and calms sensitive skin instantly.

SRP: £84.00

KEY INGREDIENTS

Anti-inflammatory:

Reoxderm®

Active Repairing & Protective System:

Reoxderm®, Plant Extracts

Moisture Repair System:

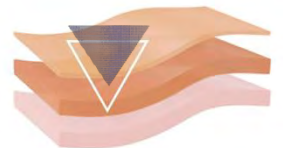

Calendula, Almond oil, Sunflower oil, Camellia oil

Anti-ox complex:

Ascorbic acid (Vitamin C), Vitamin E, Turmeric, Lycopene

Microbiome balancing:

Alpha-Glucan Oligosaccharide (prebiotic), Lactobacillus (probiotic)

RADIANCE GEL

An ultra-light, barely-there hydrating gel that contains a cocktail of protective and brightening antioxidants along with regenerative SCA PRO growth factors to improve the skin's structure.

SRP: £65.00

KEY INGREDIENTS

Anti-oxidant activity: Vitamins C & E plus ellagic acid and caffeic acid

Skin hydrator:

Hyaluronic acid

Regenerating and repairing:

SCA PRO growth factors

RESTORE CREAM

A rich & intensely hydrating cream. Restore Cream contains low levels of Retinsphere technology to maintain retinol activity, EDAFENCE to protect and strengthen the skin and advanced moisturizing system to maintain hydration.

SRP: £75.00

KEY INGREDIENTS

Skin cell renewal: Retinsphere

Anti-pollution: EDAFENCE

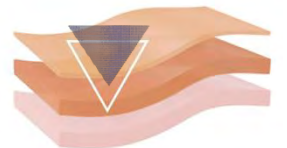

Skin barrier strengthening:

Niacinamide & skin hydrators

Skin soothers:

Chamomile and liquorice extract

Antioxidant activity: Vitamins C & E

MATTIFYING GEL

An ultra-light, intensely hydrating gel that's perfect for oily & combination skin. It also delivers skin renewal with Retinsphere Technology combined with antioxidant and skin brightening ingredients.

SRP: £65.00

KEY INGREDIENTS

Long-lasting hydration:

Hyaluronic Acid & Arginine

Skin cell renewal: Retinsphere

Skin barrier strengthening:

Niacinamide

Skin brighteners: Tranexamic

Acid & Azelaic Acid

Antioxidant activity:

Zinc & Vitamin E

BRIGHTENING AMPOULES

A high intensity oil-free serum that infuses the skin with high levels of Vitamin C to brighten and purify the complexion while SCA PRO smooth lines and wrinkles. This 28-day course will awaken your skin and give it a rejuvenating boost.

SRP: £100.00

KEY INGREDIENTS

Intensive brightening and antioxidant

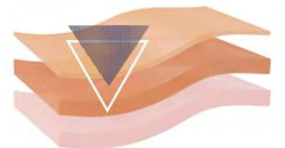

activity: 15% Vitamin C

Regenerating and repairing:

20% SCA PRO growth factors

Intensive moisturisation:

Proteoglycans

Brightening Ampoules Clinical Data¹

Clinical efficacy after 28 days

- +80% Increased brightness
- +80% Improved texture
- +90% Firming effect
- +90% Increased moisture
- +75% Increased elasticity

Cosmetic observations after 28 days

- 80% Increased brightness
- 85% softer skin
- 75% Increased elasticity

REPLENISHING CREAM

A rich, nourishing & soothing cream with powerful SCA PRO growth factors to regenerate skin deep in the dermis, and a skin-firming complex with immediate and long-lasting hydrators

SRP: £70.00

KEY INGREDIENTS

Regenerating & repairing:

SCA PRO growth factors

Antioxidant activity:

Vitamin E

Instant and long-lasting hydration:

Moisturising active complex

Firming: Calcium

REGENERATING AMPOULES

A rich, rejuvenating serum to aid skin recovery, or to give your skin a month-long rejuvenating boost. With very high levels of SCA PRO growth factors the serum gets to work deep within the dermis for outstanding results & reducing fine lines and increasing firmness.

SRP: £90.00

KEY INGREDIENTS

Regenerating & repairing:

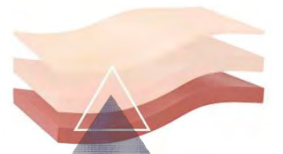

40% SCA PRO growth factors

Antioxidant activity:

Vitamins C & E

Instant and long-lasting hydration:

Moisturising active complex

Regenerating Ampoules Clinical Data²

SCA PRO is clinically proven to;

- Enhance treatment results by up to 50%.
- Increase collagen, elastin and HA production
- Reduce the area and depth of wrinkles
- Rejuvenates senescent skin cells
- Reduce redness post procedure
- Reduce downtime

FIRMING SERUM

Working deep into the dermis with SCA PRO growth factors, the light, fast-absorbing serum that repairs and regenerates the skin whilst boosting brightness, firmness and hydration.

SRP: £75.00

KEY INGREDIENTS

Regenerating and repairing:

SCA PRO growth factors

Firming: Calcium & protein of soy

Skin brightener: Niacinamide

Antiox complex: Vitamins C & E

Skin hydrators

FIRMING EYE CREAM

A lightweight cream-gel that brightens and firms the skin around the eyes with potent SCA PRO growth factor technology. Peptides help to reduce puffiness and dark circles, while soft-focus microspheres give instant luminosity and soften fine lines.

SRP: £50.00

KEY INGREDIENTS

Regenerating and repairing:

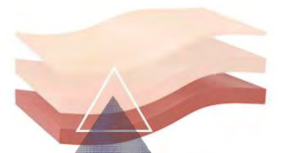

SCA PRO growth factors

Firming: Decongestant peptides

Reducing puffiness: Protein of soy

Antioxidant Activity:

Superoxide dismutase

MINERAL FLUID SPF50

High-level, broad-spectrum sun protection product with 100% mineral filters. This silky fluid protects against the daily damage caused by UV, visible light and infrared-A. Enriched with the powerful antioxidant Fernblock.

SRP: £35.00

KEY INGREDIENTS

UVA & UVB protection:

Mineral filters

Infrared-A and visible

light protection: Physavie,

Biomimetic Melanin and OTZ

10 Pro Taurine

Powerful antioxidant activity,

DNA repair, protection from

infrared-A and visible light:

Fernblock

MINERAL COLOUR SPF50

High-level, broad-spectrum protection against daylight (UV, visible light and infrared-A) combined with natural-looking foundation coverage available in beige and bronze.

SRP: £45.00

KEY INGREDIENTS

UVA & UVB protection:

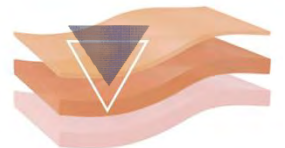

Mineral filters

Protection from infrared-A

& visible light: Fernblock

DNA repair: Glycosylase

Hydration: Hyaluronic Acid

STIMULATION

RENEWAL SERUMS

Potent retinol serums that stimulate skin to increase cell renewal, reduce lines and wrinkles, brighten and even the complexion.

KEY INGREDIENTS

Retinsphere Technology:

A potent combination of Hydroxypinacolone Retinoate and Retinol on Glycospheres

EDAFENCE: Powerful antioxidant activity preventing a cascade of damage and alterations to skin architecture

Essential Renewal Serum 0.25%
Advanced Renewal Serum 0.5%
Ultra Renewal Serum 1%

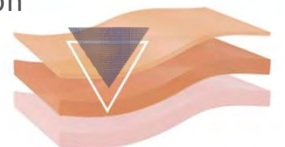

SRP: £80.00
£90.00
£115.00

KEY INGREDIENTS

Niacinamide: Anti inflammatory, anti oxidant and reinforces the barrier function

Advanced Hydration System:
Floods the skin with hydration and prevents TEWL

Bisabol: Sooth and calm skin to reduce irritation

RETINOL PROGRAMMES

The ALLSKIN | MED Retinol Programmes are the ultimate regimes to tackle advanced signs of ageing, proven to improve skin texture, stimulate cell renewal, and improve skin barrier function.

Our Retinol Programmes have been designed to treat every client at every stage in their retinol journey. Each is made up of an expertly-designed trio containing a graduated concentration of Renewal Serum, allowing the skin to tolerate and adjust, with minimal adverse effects.

ALLSKIN | MED Collagen Activation Plan

Enhance Treatment Results by up to 50%

- Designed specifically for skin undergoing professional, advanced skin rejuvenation treatments.
- The core technology in this plan is SCA® PRO growth factor technology. The result of years of research, SCA® PRO stimulates the production of collagen, elastin and hyaluronic acid in your skin to leave it smoother and plumper. It's clinically proven to reduce downtime post-procedure, accelerate skin recovery & enhance treatment results.
- SRP: £136.00

Who is this plan for?

- Those with advanced signs of ageing
- Loss of firmness & elasticity
- Sagging Skin

What treatments does this plan complement?

Fillers, Collagen inducing injectables, Threads, Ablative Lasers, RF, Microneedling, HIFU, ultrasound, LED, IPL, Polynucleotides, PRP, Hydrafacial

ALLSKIN | MED Complexion Perfector Plan

Brighter Skin in as little as 15 days

- Designed to even skin tone & smooth texture, this 28-day regime will awaken your complexion and brighten the skin in as little as 15 days¹.
- Combining the revitalising properties of 15% stabilised Vitamin C with the power of 20% SCA Pro, you will see significant improvements in the not only the radiance of your skin but the appearance of fine lines and wrinkles¹.
- The gradual release AHA complex technology encourages exfoliation and promotes healthy renewal to improve skin texture and leave skin fresh, polished and radiant.
- SRP: £204.00

Who is this plan for?

- Dull skin lacking in radiance with uneven skin tone and discoloration.
- Textural issues with visible fine lines and wrinkles.
- This plan is ideal for those looking for an effective regime prior to special occasion or when you want skin to look its best.

What treatments does this plan complement?

Advanced facials, Skin Peels, Microneedling, Microdermabrasion, WOW Fusion, IPL, Laser, Skin Boosters/Prohilo, Hydrafacial, FSR & Meso Therapy.

ALLSKIN | MED Moisture Firm Plan

Hydrate & strengthen skins barrier with the Moisture Firm Plan.

- Formulated with SCA® PRO, the regenerating properties of this regime will increase firmness and elasticity in the skin & reduce the appearance of fine lines & wrinkles². The complexion is brighter, tighter & more hydrated.
- Moisture Complex with immediate and slow-release technology provides intense hydration to flood the skin with moisture, leaving it soft & glowing.
- SRP: £165.00

Who is this plan for?

- Skin lacking in hydration
- Those with a damaged barrier
- Those who wish to target signs of ageing focusing on firming face, neck, and eye area.

What treatments does this plan complement?

Skin boosters/Prohilo, Oxygen Infusion, Hydrafacial, PRP, IPL, Polynucleotides, LED, RF, laser, Microneedling & Skin Peels.

ALLSKIN | MED Pigment Control Plan

Hydrate & strengthen skins barrier with the Moisture Firm Plan.

- The Pigment Control Plan is expertly designed to be used alongside ablative or energy-based device treatments, such as IPL, laser, peels and micro needling.
- By following the plan, your patients will greatly reduce their risk of PIH and enhance and prolong their treatment results for pigmentation.
- The goal of the plan is also to correct and prevent sun-related pigmentation, whilst boosting hydration, reducing irritation, and creating a brighter, more uniform skin tone.
- SRP: £130.00

Who is this plan for?

- Pigmentation related to sun exposure
- Reduces the risk of post-inflammatory hyperpigmentation after treatments
- Adjuvant to depigmenting treatments
- Melasma
- Fitzpatrick III – VI with higher risk of PIH

What treatments does this plan complement?

- IPL
- LED
- Laser
- Micro needling
- Peels
- Ablative/non ablative energy-based treatments
- Treatments with increased risk of PIH

Post-Procedure

Improve treatment results & enhance client satisfaction by introducing ALLSKIN | MED SCA Pro post-procedure.

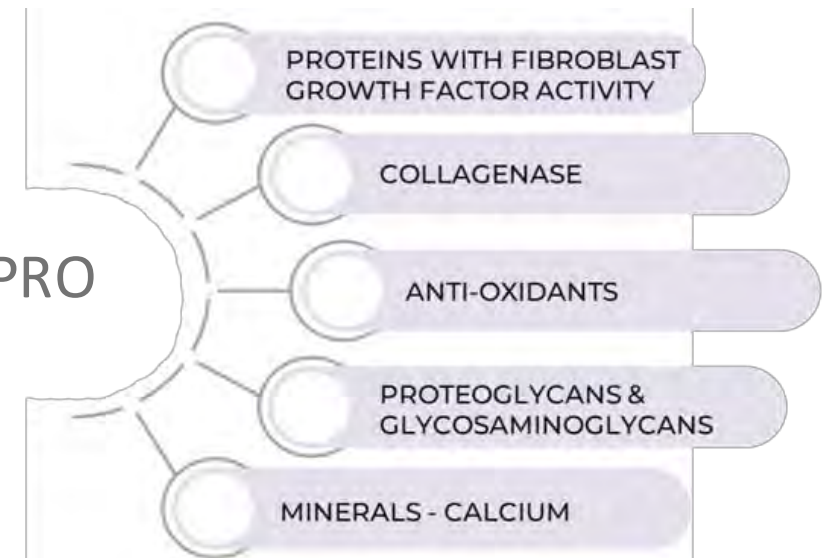

By incorporating the GF ampoules & mask into any treatment post-procedure, you will reduce potential redness and speed up client recovery and downtime thanks to the regenerating properties of SCA Pro.

Post-procedure: Step 1

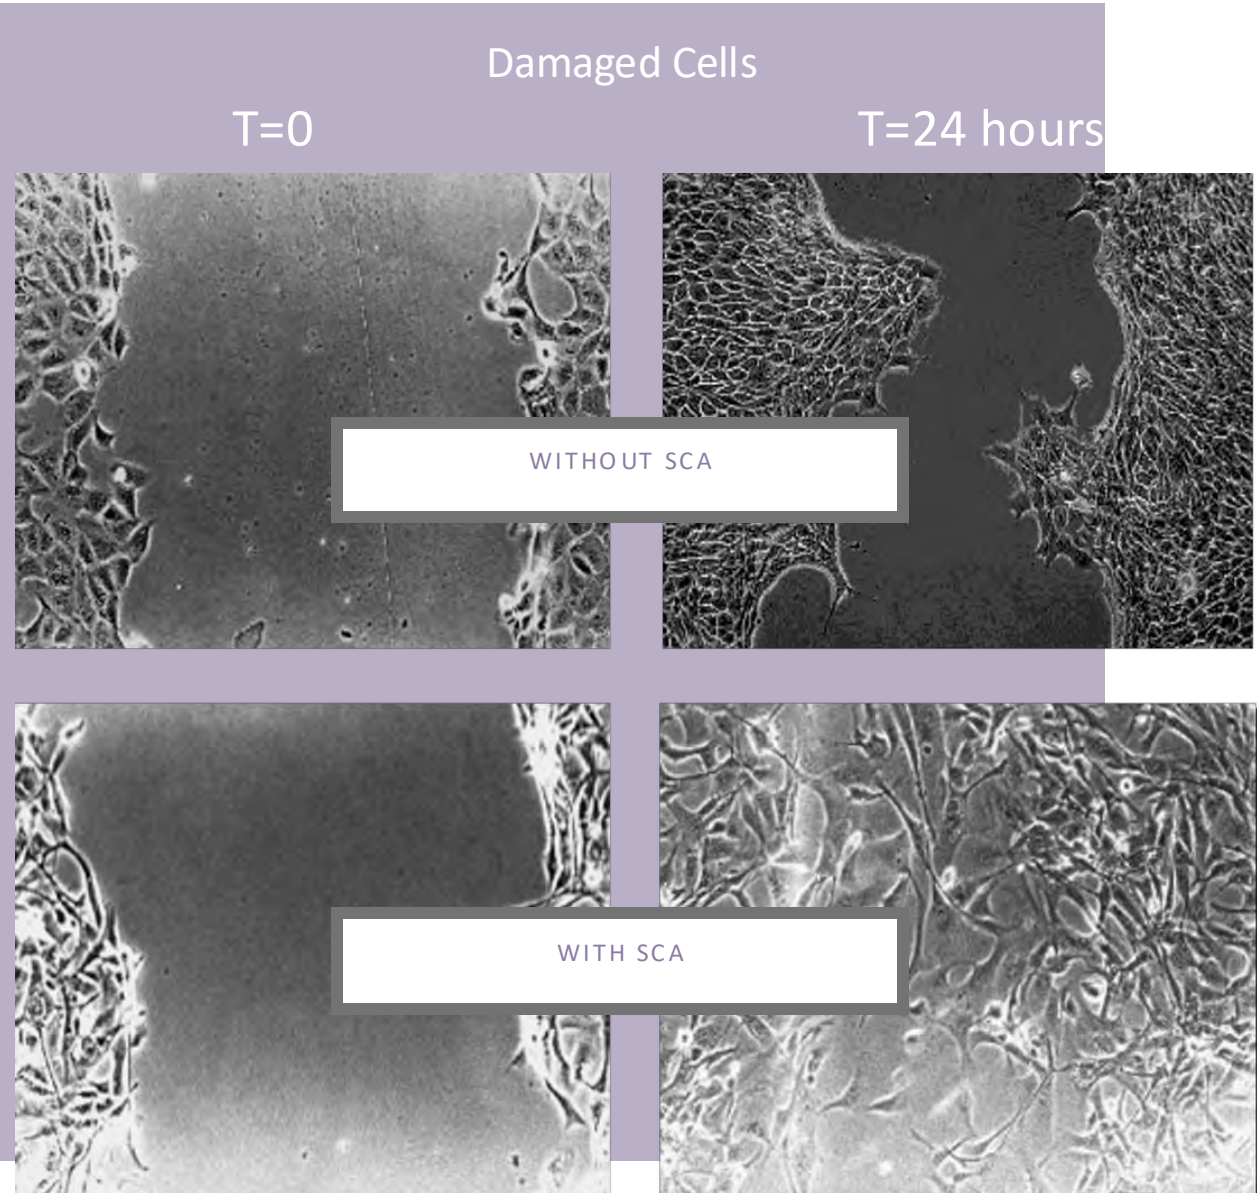

Apply one ALLSKINMED Regenerating
Ampoule SCA PRO 40%
immediately post-procedure.

SCA PRO

Accelerates skin recovery

- Controlled damage stimulates the wound healing response.
- SCA PRO stimulates migration of fibroblasts & keratinocytes.
- More collagen, elastin, HA and fibronectin.
- Speeds up the natural response.
- Significant reduction in TEWL after just 24hrs.

24 HOURS AFTER TCA PEEL

WITH REGENERATING
AMPOULES

WITHOUT REGENERATING
AMPOULES

SCA PRO post-procedure

25% TCA Peel

Immediately post procedure 40% SCA applied
to one side of face.

24 hours after skin showed significant
reduction in redness, burning sensation and
dryness.

Significant reduction in downtime.

*Image courtesy of Dr. Monica Kiripolsky

Post-procedure: Step 2

A repairing, soothing and comforting mask for delicate and compromised skin post procedure.
(non-ablative only)

6% SCA PRO stimulate repair and healing
5% Marigold Extract calming and anti-inflammatory 13%
Moisturising complex.

How to use:

Apply a generous layer (8-10 pumps) over face and neck. Allow to absorb, or massage to increase penetration. Remove excess residue if required.

ALLSKIN|MED
WHEN SCIENCE MEETS EXPERIENCE

REAL RESULTS

14% wrinkle reduction demonstrated on visia skin
analysis after 6 weeks using a curated ASM
skincare plan only

(no in-clinic treatments performed.)

Visible improvements in wrinkles,
firmness, texture, and tone

PROGRAMME FOLLOWED:

PATIENT TESTIMONIAL

"I've used numerous skincare brands over 3 decades and Allskin Med is **the first to have made a significant difference to my skin**, so much so that several **friends commented on how good it looks**.

I've struggled for years with lines, congestion, excess oil, redness and generally poor texture and dullness and was unsure what impact skincare only could have.

I was therefore **delighted with the overall improvement to my skin after a month**.

ASM has also **converted me to finally using SPF on a daily basis** - no days skipped!

Particular favourites were the **Regenerating Ampoules and the Eye Cream** - really lovely textures so easy application. I think the ampoules and eye cream in particular gave an instantly better finish to my skin so people often asked what I was using on my skin, well before the overall range had had time to take effect.

Thank you to **ASM for rescuing skin** which seemed beyond redemption!"

Visible improvements in radiance, tone, texture, pores, red areas and brown spots

This patient journey has been over 2 years

She has had regular facials incorporating ASM products, a bespoke ASM skincare regime and injectables

Her favourite product is the ASM regenerating ampoules

This patient has been using the ASM products
for just under 1 year now

As you can see there are visible improvements
in luminosity, red areas, texture and tone

Significant improvements in scarring,
skin barrier, dryness, inflammation &
clarity

Before and 5 weeks after using just
ALLSKIN | MED products (no
treatments):

Essential Renewal Serum
Radiance Gel
Firming Eye Cream

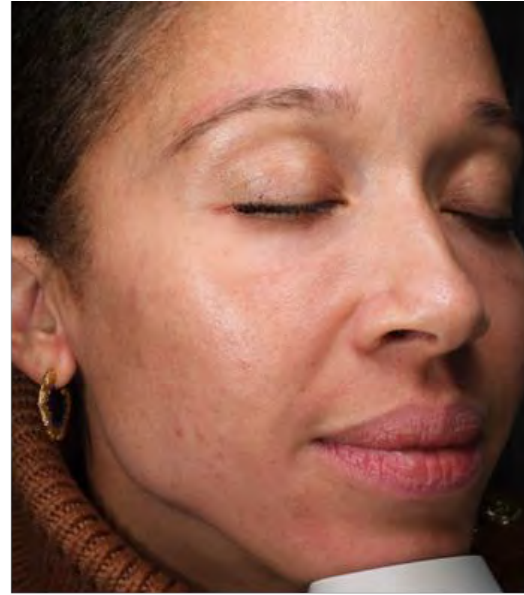

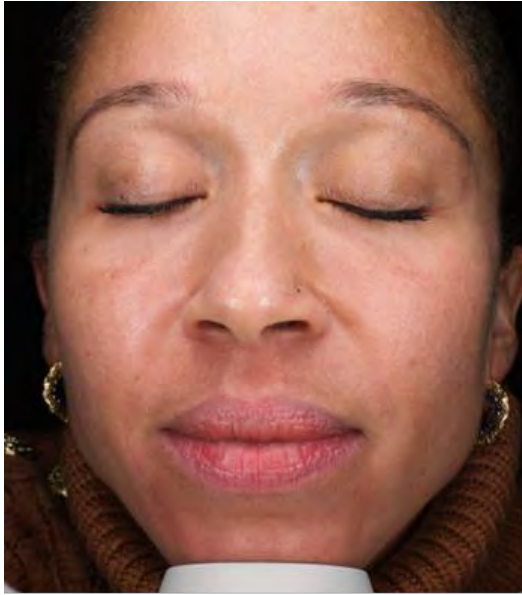

A 6-month journey

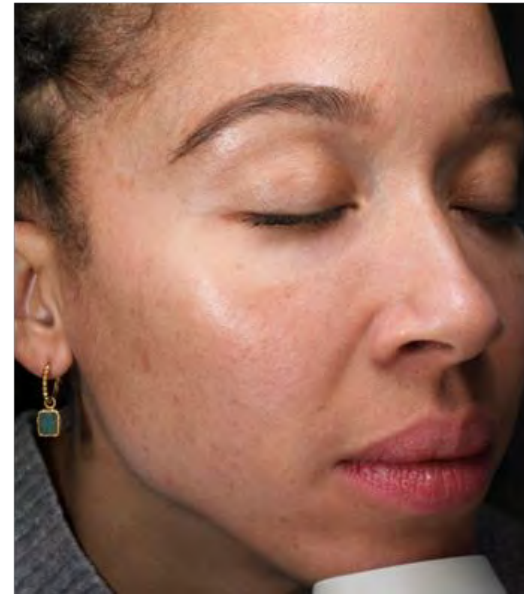

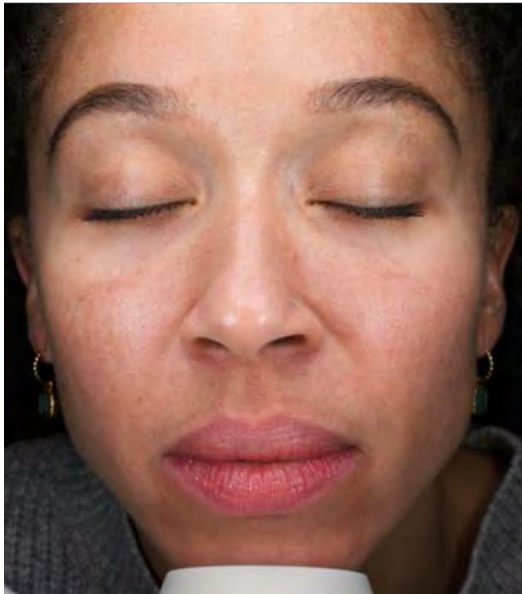

Visible improvements
in firmness, tone,
texture, browns spots and
radiance

A combination of superficial
chemical peels and a curated
ASM skin regime were used
to achieve this result

His favourite product is
the radiance gel

Just 6 weeks use of ALLSKIN | MED
Regenerating Ampoules & Firming
Eye Cream.

Skin texture & tone have
considerably improved.

Brighter, firmer & clearer
complexion.

Reduced pore size.

ALLSKIN | MED PIGMENT CONTROL PLAN

Case Study: 45-year-old female with longstanding severe melasma

Treatment Approach:

- Daily use of ALLSKIN | MED Pigment Control Plan:
 - **Oral Capsules** (Fernblock+, vitamin C, niacinamide)
 - **Pigment Control Serum** (salicylic acid, kojic acid, niacinamide)
 - **Heliocare 360° Pigment SPF50+**
- **Hydroquinone 4%** added at week 3 for 60 days, then tapered over 4 weeks
- Long-term maintenance with ALLSKIN | MED plan

Results (Day 66):

- Significant reduction in melasma and skin sensitivity
- Enhanced skin texture, firmness, and appearance
- Notable boost in patient confidence and emotional well-being

Conclusion:

- This multifaceted, non-invasive approach effectively managed melasma
- Topical actives, oral antioxidants, and photoprotection offer accessible, science-backed solutions

AESTHETICARE

Faculty

The formation of the AESTHETICARE Faculty marks a significant milestone in our journey to champion the ALLSKIN | MED Range and elevate standards within the aesthetic industry. By uniting a distinguished group of professionals, AESTHETICARE aims to shape the future of aesthetic medicine through the sharing of knowledge, best practices, and cutting-edge innovations.

The faculty will focus on three core areas:

- **Innovation:** Developing combination protocols that further enhance clinical data and solidify ASM's position as a leader in treatment enhancement, alongside market-leading devices and technologies.
- **Education:** Driving and expanding education to amplify the ASM brand philosophy, ensuring that it resonates throughout the industry.
- **Implementation:** Embedding the core ASM philosophy in practice, leading the way as an ALLSKIN | MED clinic by utilising the three tiers of ASM to revolutionise post-procedure care, enhance treatment outcomes, and provide tailored skincare programmes. These programmes will incorporate the most advanced technologies and patented ingredients, designed to meet the needs of every patient and skin type.

ALLSKIN | MED

Introducing ALLSKIN | MED Barrier Launch

70%

more skincare
users now focus
on barrier protection than
they did a year ago

29%

But only 29%
of skincare users said
they understood its
function and purpose

“When patients come to us, their goals might be to clear blemishes, reduce signs of aging, or calm inflammation - but one of the first things we talk about in our consultation is skin barrier health. Most of them don't understand the importance of it. But the truth is, so many of the concerns they have start with a compromised skin barrier.

Hormones, diet, stress - they all play a role in weakening that barrier. That's why education is key. Helping patients understand how to protect and repair the skin barrier is the foundation for real, lasting skin transformation.”

Dr. Paris Acharya, The Ardour Clinic
ALLSKIN | MED KOL

Understanding the Skin Barrier Function

Protects

Our physical barrier stops harmful microbial or chemical entry, and our **"Redox System"**, part of our skin defense function, helps prevent and protect against oxidative damage from UV radiation and pollution. Antioxidants and enzymes help to neutralise free radicals and prevent cellular damage.

Repairs

Repairing the skin barrier is essential for restoring its natural protective function. Skin repair works in the stratum corneum, restoring lipids and proteins (like filaggrin). Antioxidant systems support repair by reducing ongoing oxidative stress and inflammation.

Hydrates

The skin's lipid layer (ceramides, fatty acids, cholesterol) retains moisture and prevents transepidermal water loss (TEWL). Damage to this leads to dehydration, flaking and sensitivity. A healthy skin barrier means your skin is hydrated, can fight off external aggressors, and maintain a healthy, glowing appearance.

What can cause a damaged skin barrier?

Harsh Environmental Stressors

Wind, cold, heat, and low humidity can dry and irritate the skin.

Pollution and excessive UV exposure can increase inflammation, cause oxidative stress, damage skin lipids and proteins.^{1, 2, 3}

Active Ingredients & Aesthetic Treatments

Overuse of certain skincare ingredients such as alcohols or strong acids (e.g. AHA's, BHAs), retinoids, and harsh preservatives can irritate the skin. As well as aggressive chemical peels, lasers, and microneedling.^{4,5}

Intrinsic and Extrinsic Ageing

Naturally, lipid production and skin cell turnover slows down as we age, weakening the barrier.⁶

Lifestyle Factors

Poor diet, high cortisol, and lack of sleep can weaken skin repair by reducing essential nutrients (fatty acids, vitamins) and disputing its natural recovery.^{7, 8}

Dermatological Skin Conditions

Rosacea - causes inflammation, disrupts lipid balance, increases permeability, alters the microbiome, and triggers immune responses, weakening the skin's protection.

Atopic dermatitis - due to filaggrin mutations and low ceramides.

Psoriasis - from fast skin cell turnover.^{9,10}

The Benefits of a Healthy Skin Barrier

Immune Protection:

Maintains skin integrity, defends against infections protecting against bacteria, viruses and toxins. Supports healing which can enhance treatment outcomes

Supports Microbiome:

Supports an environment for healthy bacteria to thrive which is essential for immune defence.

Hydration:

Allows the skin to retain essential moisture and reduces TEWL. Maintains skin hydration, boosting glow and reducing fine line.

Enhanced Treatment efficacy:

A well-functioning barrier allows active ingredients penetrate more effectively and evenly, enabling for better results from in-clinic treatments.

Maintains Skin pH:

Keeps skin slightly acid to stop harmful bacteria growing.

Reduces Sensitivity & Reactions:

A strong barrier minimises irritation, redness and post-treatment complications.

To have a **scientific approach** to the tackling a compromised barrier, products need to be **targeting the skin in the same way healthy skin naturally does.**

ALLSKIN | MED Products are Backed by Science

Maximum Efficacy

Clinically proven formulas with scientifically-proven actives and over 30 years of Cantabria Labs innovation in dermatological research.

Extensive clinical studies & publications across both core-technologies & product formulas.

Core Technologies & Ingredients

ALLSKIN | MED formulas contain patented technologies along side sought-after ingredients that are backed by clinical data and designed to work in synergy.

Pure and high-quality ingredients optimised in innovative vehicles which ensure stability, improve delivery & tolerance.

Targeted Solutions

A range of unique, active formulations which work on each specific skin layer to not only improve efficacy but to provide a solution for key indications in clinic.

Each solutions contains high concentrations of our exclusive technology & ingredients to ensure maximum efficacy.

Treatment Enhancement

Each ALLSKIN | MED formula or regime is specifically designed to work in partnership with aesthetic skin treatments/procedures to ensure the most complete and effective protocols for each specific skin need.

A holistic treatment experience.

Introducing ALLSKIN | MED

Barrier Defence Emulsion & Barrier Recovery Cream

Barrier Defence Emulsion

Suitable for all skin types:
designed for everyday use

Barrier Recovery Emulsion

Suitable for all skin types –
particularly compromised barrier
& post-treatment home-care

Backed by science, these products are an essential part of clinic offering. Designed to be incorporated into a daily routine, providing everyday support for maintain a healthy and resilient skin barrier among your patients.

Brand new technology, Reoxderm®

Exclusive to ALLSKIN | MED

At the heart of both products is Reoxderm®, providing powerful antioxidant activity that reduces ROS-induced skin damage, prevents cellular degradation and alteration. It helps prevent oxidative damage, reduce inflammation, and promotes the normalisation of the skin processes and repair mechanisms, as well as rebalances the skin's microbiome.

A combination of naturally-derived actives for comprehensive antioxidant, anti-inflammatory and immunomodulating activity:

- **Locust Bean Gum:** Composed of micro-minerals, carbohydrates, vitamins and flavonoids. It regulates intracellular redox signals and carry out an anti-inflammatory activity
- **Tumeric (curcumin):** Polyphenol with antioxidant, immunomodulating and anti-inflammatory properties
- **Ascorbic Acid:** antioxidant that acts as a defensive barrier against ROS
- **Tocopherol:** anti-oxidant that neutralizes lipo-oxidation
- **Lycophene:** inhibits cell aging
- **Alpha-Glucan Oligosaccharide:** prebiotic, known to rebalance the skin microbiota
- **Lactobacillus:** probiotic and helps regulate inflammation

Reoxderm® Mechanism of Action

The logo for Reoxderm LIQUID is displayed within a white circle. The word "Reoxderm" is in a large, bold, black sans-serif font. Below it, the word "LIQUID" is in a smaller, red, all-caps sans-serif font, preceded by a red horizontal bar.

Carries out powerful **ANTI-OXIDANT** effect

Reduces ROS induced skin damage
& regulates skins redox system

Prevents cellular degradation and alterations
(including skin ageing)

Reduces severity and symptoms of inflammatory
skin diseases

Accelerates healing processes and
repair mechanisms

Barrier Defence Emulsion 50ml

PROTECT | STRENGTHEN | ANTI-AGE

Correction & Stabilisation

Activates the skin's natural healing and defense process to strengthen and protect against daily aggressors

- 5% Reoxderm
 - Reintol Microsponges <0.1%
 - Tri-Peptide SYN-COL
 - 5% Niacinamide
 - Natural Plant extracts
 - Naturally derived moisturising ingredients
- 96% of users said their skin felt more renewed and repaired
 - 96% found their skin was more hydrated
 - 92% saw improved elasticity and softer skin
 - 94% saw increased luminosity
 - 95% found it compatible with other products in their routine

How to use:

Daily use. Apply in the morning after cleansing, 2-3 pumps to face and neck

Barrier Recovery Cream 50ml

RESTORE | SOOTHE | MOISTURE | HYDRATE

Correction & Stabilisation

Activates the skin's natural recovery process and restores the skin barrier function to strengthen and protect against daily aggressors

- 5% Reoxderm
 - Naturally derived moisturizing and emollient ingredients:
 - Camelina Oil, Sunflower Oil & Almond Oil
 - Propanediol & Pentylene Glycol
 - Dimethicone
 - L-Arginine & Tocopherol (Vitamin E)
 - Squalane
 - Glycerine & Hyaluronic Acid (Sodium Hyaluronate)
 - Cholesterol
- 91% of users reported their skin felt more renewed and repaired
 - 96% observed significantly more hydrated skin
 - 89% noticed it instantly reduced discomfort and irritation
 - 86% said their skin became less reactive
 - 94% noticed reduced skin tightness
 - 100% of users reported a more even skin tone
 - 95% saw improved elasticity
 - 93% noticed softer skin

How to use:

Apply the product to clean, dry skin in the evening. Massaging gently until completely absorbed.

In-Clinic Results

Who?

- 45 year old
- Caucasian Female

Concerns?

- Photoaging
- Dryness
- Sensitivity
- Perimenopausal skin changes

Solution?

5-week Skin Regime:

Morning

- Cleansing Foam
- Barrier Emulsion
- Gel Oil-Free SPF

Evening

- Cleansing Foam
- Advanced Retinol 0.5%
- Barrier Cream

Outcome?

- Visible redness reduction
- Improved tone
- Patient felt skin was more hydrated despite cold weather & illness

Who?

- 40 year old
- Caucasian Female

Concerns?

- Rosacea
- Sensitivity
- Hormonal acne

Solution?

5-week Skin Regime:

Morning

- Cleansing Gel
- Biretix Oil Solution
- Barrier Emulsion
- Mineral SPF

Evening

- Cleansing Gel
- Firming Serum
- Advanced Retinol 0.5%
- Barrier Cream

Outcome?

- Brighter skin
- Some reduction in redness, pores, and improved texture

Our Hero Skin Barrier Protocol

For skin that is post-treatment, or for those who have come to clinic with a compromised skin barrier including sensitive skin, rosacea and inflammation

AM

PM

Cleansing Foam

Shake before use

Use AM and PM

Apply to damp skin,
massaging gently.

Rinse with plenty of water

AM

Barrier Defence Emulsion

Use AM

After cleansing
apply 2-3 pumps to
face and neck

AM

Heliocare 360° AR Emulsion SPF50+

Shake before use.
Use daily.

Once all additional
skincare products have
absorbed apply 2 finger
lengths (4 pumps) to the
face, neck and around the
eyes.

Use **AR EMULSION**
a light, tinted fluid targeting
redness and rosacea.

PM

Barrier Recovery Cream

Use PM following Barrier
Defence Emulsion

Use PM

Apply 2-3 pumps

Allow cream to
fully absorb before
applying SPF

Why Addressing the Skin Barrier in Your Consultation Matters

To have the most impact, the Skin Barrier needs to be discussed right at the start:

Patients often don't understand the importance of the skin barrier

We know they have little knowledge of how to support their skin barrier, and how it impacts sensitivity, healing, and treatment success.

Barrier health directly affects treatment outcomes

Compromised skin barriers slow recovery and reduce treatment effectiveness.

Addressing the barrier upfront allows you to guide patients

You can offer tailored recommendations, build trust, and improve adherence. Overall improving the patient's journey.
